

"The IEC Young Professionals Programme is a brilliant way to network with others who are passionate about how standards are developed and how they would like to see them develop in the future."

Alan Sellers, Senior Environmental Control Approvals Engineer, Dyson & IEC Future Leader Winner 2016.

Professional development in standards-making for young engineers

Attend the 2017 IEC General Meeting all-expenses paid

The International Electrotechnical Commission (IEC) is the world's leading organization that prepares and publishes International Standards for all electrical, electronic and related technologies. Every year its General Meeting brings together stakeholders to debate current issues and decide on future directions and strategies for the IEC.

In autumn 2017 the IEC's General Meeting will be held in Vladivostok, Russia and **BSI, BEAMA, GAMBICA, AMDEA** and **IET** - in partnership with the **IEC** - is offering three young engineers the opportunity to attend this event all-expenses paid, as part of a Young Professionals Programme.

Why apply?

- Represent the UK at an important international event and enhance your professional reputation
- Get your voice heard in the international arena and help shape the future of global standardization and conformity assessment
- Network with other upcoming expert engineers, technicians and managers
- Help cultivate a long-term environment for the involvement of young people in international standardization

As well as a chance to attend and participate in the 2017 IEC General Meeting, successful applicants will have the opportunity to participate in BSI's standards development and standards education work during 2017/18.
