## BEAMA Group Stand at Middle East Electricity 2019

A design with excellent height and visibility for the branding, with a double height rear wall to 4.88m. The upper section will have the current GREAT Branding as per the latest DIT decree!

The stand design is open to enable exhibitors to maximise on their displays and the exhibitor names are printed on the side wall in a much larger font.

Lighting is provided by new LED floodlights situated on the back wall – and downlights in the colour coordinated coping.
