

Join UK Trade & Investment's Medium Sized Business Mission to Brazil

16-19 November 2015

With over 200 million people, the world's 7th largest economy and as Britain's largest export partner in Latin America (larger than the next 4 Latin American markets combined), Brazil is a country that our businesses cannot afford to ignore.

Aimed at experienced exporters and with tailored support for medium-size businesses as part of the UKTI MSB programme, this ministerial led trade mission to Brazil, in partnership with Santander and KPMG will open doors for you in Brazil's biggest markets, Sao Paulo and Rio de Janeiro and put your company in front of key contacts.

The mission, led by the **Lord Maude of Horsham, Minister of State for Trade and Investment**, will follow a comprehensive visit programme to Sao Paulo and Rio de Janeiro, with the opportunity to interact with senior government contacts, potential local buyers and partners. Delegates can maximise their chances of business success in Brazil by attending the high-level networking events that will be organised, with companies hand-picked by our UKTI teams in Brazil. Senior staff from UKTI teams around the Latin America region will also be on-hand offering face to face discussions on wider regional opportunities for your firm.

Logistics

UK companies will be responsible for booking their flights (international & internal) and hotels (Rio and São Paulo). UKTI will help facilitate this by providing preferential rates with hotels.

Date 16-19 November 2015

Location Brazil
