ENI SERVICES GROUP

PROSPECTUS

Welcome from the CEO

The trade association for energy infrastructure & systems

BEAMA represents an industry at the heart of the UK's clean energy and electrification journey. Our members enable clean power in the UK and around the world. They design, manufacture and supply the technologies which decarbonise and electrify buildings and transport, whilst expanding and upgrading energy infrastructure. These sectors are fundamental to economic growth, energy security and the delivery of a low carbon future."

With the UK delivering its largest electricity network upgrade in a generation, BEAMA's Electricity Networks Infrastructure (ENI) Sector brings together the full supply chain, from manufacturers and systems designers to service providers and delivery firms. Through our ENI Services Group, members can strengthen their collective voice, share expertise, develop joint initiatives and help shape the policies and investment needed to deliver this ambitious programme. The Electricity Networks Sector Growth Partnership is the vehicle to deliver our Sector Growth Plan, and this requires decisive action and collaboration. Your membership of BEAMA allows you to be a stakeholder in working with the electricity network operators, the wider sector including transport, data centre and renewable energy developers and relevant government departments. BEAMA enables the supply chain and the wider sector to come together to build the workforce of the future and inform necessary changes to policy and regulation that will enable investment to meet the challenge ahead."

This prospectus sets out how BEAMA supports its members today, while laying the foundations for long-term success. I am proud of the organisations we represent and the influential role we play in building a strong, innovative and forward-looking industry."

Yselkla Farmer
CEO

About BEAMA

The trade association for energy infrastructure & systems

Shaping the policy, standards and markets that enable UK companies to compete, comply and grow.

We work at the intersection of regulation, standards and market development, providing manufacturers with early insight, technical expertise and a collective voice on product safety, performance, energy efficiency, digitalisation and sustainability. Our scope spans energy networks, electrical infrastructure and service technologies across the built environment, transport and energy sectors.

Established in 1905, BEAMA is a trusted partner to manufacturers and service providers navigating complex and fast-moving change. Through targeted forums, technical groups and market-focused initiatives, we help members anticipate regulatory developments, influence policy and standards, reduce risk, and position their businesses for long-term growth in the UK and beyond.

Welcome from Group Chairman

beama
The trade association for energy infrastructure & systems

BEAMA has long been a trusted voice for industry, bringing 120 years of experience in representing manufacturers and the wider supply chain across Transmission and Distribution. Working alongside ENA, they are now helping lead the UK Electricity Networks Sector Growth Plan, setting out a strategic action plan for the sector as a whole.

I am delighted to now be working with BEAMA to see this representation extend to those who are actually building out that critical infrastructure and include adjacent sectors.

This representation is vital to ensuring that organisations such as United Infrastructure Ltd, and the wider delivery supply chain, have a strong voice in shaping and delivering a secure and sustainable infrastructure revolution across the UK."

Griff Thomas
Chair of the BEAMA ENI Services Group

united infrastructure

Our Sector

The BEAMA Electricity Networks Infrastructure (ENI) Sector is the voice of Britain's grid supply chain.

The members of BEAMA's ENI sector are instrumental to manufacturing and delivering grid infrastructure programs for Transmission and Distribution.

Our members future-proof the grid and make clean electricity accessible to all. BEAMA's access to Government and regulators, as well as representation on key groups and panels, give us the influence industry needs to succeed in this time of unprecedented growth. We sit on the ministerially chaired Electricity Networks Delivery Forum, allowing us to promote the critical role of the sector and what it needs to meet the needs of a growing network.

We led the development of the **Electricity Networks Sector Growth Plan** with the Energy Networks Association (ENA) and are delivering it through the Electricity Networks Sector Growth Partnership. Here, we work collaboratively with the UK's network operators, the wider sector, Government and Ofgem to improve the evidence base on the UK manufacturing sector and civils industry, build the workforce of the future, and agree actions and recommendations to support us in maximising the economic opportunities from the growth in the networks sector.

Who is in scope?

Meet your network

beama
The trade association for energy infrastructure & systems

Our scope covers manufacturers and suppliers of electrical network equipment, services and digital solutions, covering all voltage levels (from <1000V to over 400kV) and supplying to both the regulated network companies and private markets.

Balfour Beatty

M GROUP

united infrastructure

Our ENI Services Group work closely with the members in the wider ENI Sector:

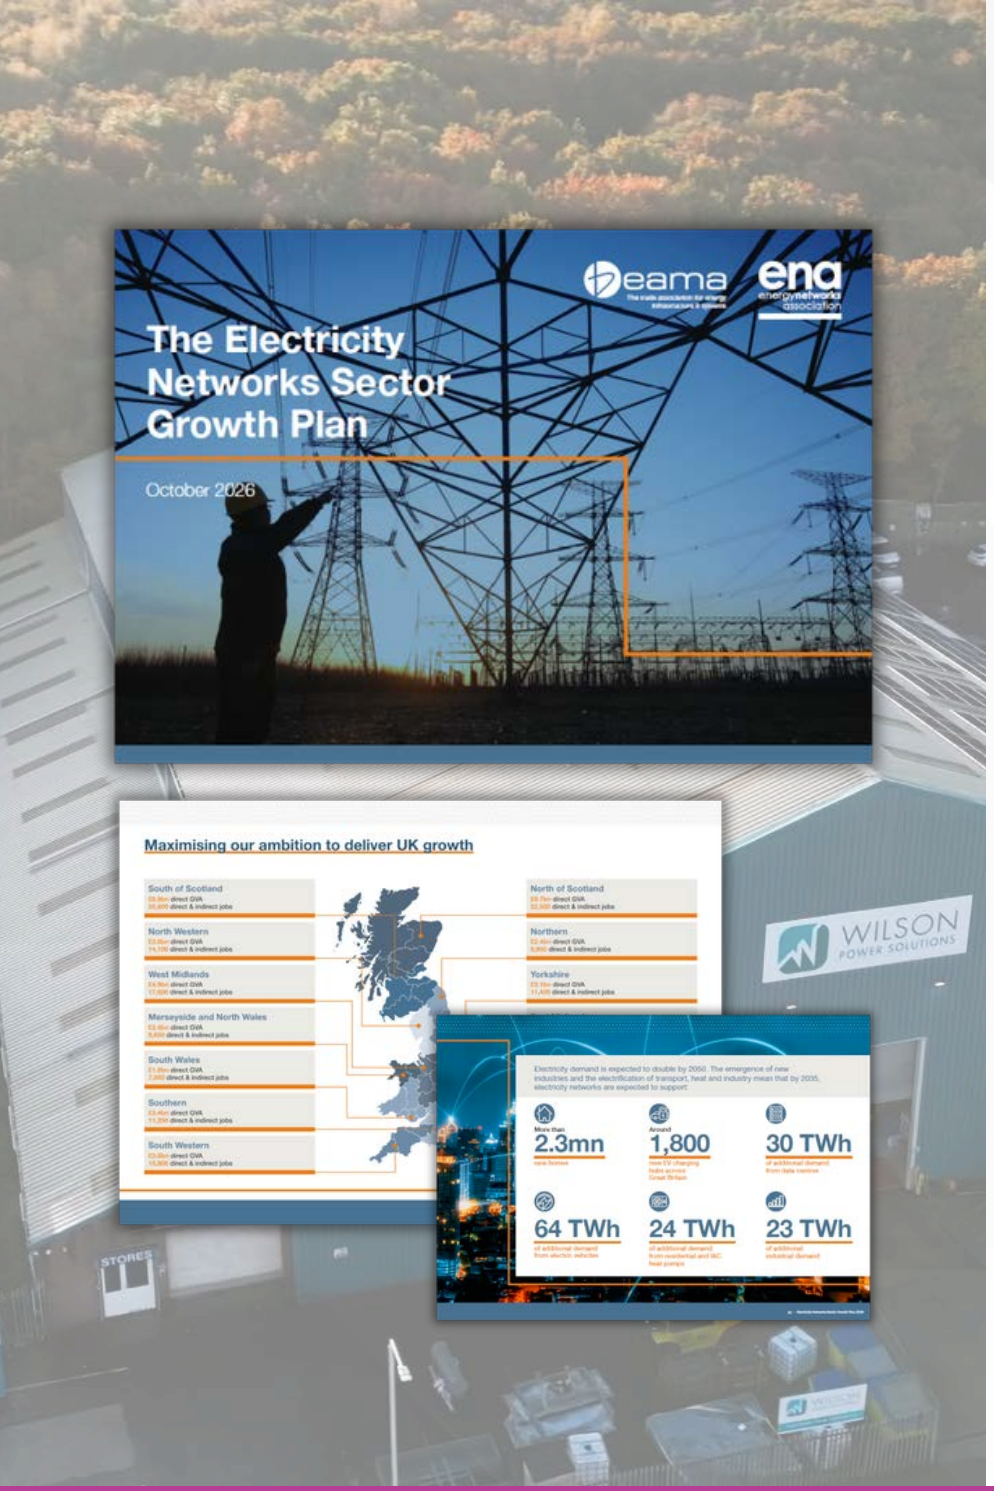

Members of the wider ENI Sector include companies supplying products, systems and solutions, including transformers, switchgear, protection and control, High-Voltage Direct Current (HVDC) and automation.

Our network is your network

The trade association for energy infrastructure & systems

We work closely with a range of government bodies and regulators to advocate for the needs of our members, including DESNZ, DBT, Ofgem, the National Wealth Fund and Great British Energy. We are also a member of T&D Europe, the European trade body for network manufacturers, and engage with a range of other trade bodies, including Energy UK and the Energy Networks Association.

The trade association for energy infrastructure & systems

Our Workplan

We work to ensure that Government policy and regulation considers the needs of our supply chain, raising the need for changes to procurement practice, greater visibility and confidence. Clarity on the forward investment pipeline and confidence in contracting is required, so we can invest in the supply chain to meet the unprecedented growth ahead.

Our focus is on both the regulated and independent networks businesses, and the private market, driven by sectors including data centres, battery storage, EV and Renewable Energy development. In 2026 and 2027 we are focused on jointly leading the Electricity Networks Sector Growth Plan with the ENA. Actions include:

- Collaboration on workforce and good quality jobs.
- Forward visibility and confidence for the supply chain.
- Input into cross-sector standardization and procurement harmonisation processes to increase capacity in the supply chain to deliver.

We also feed into key work programmes like the Industrial Strategy and Clean Power 2030, as well as Ofgem's price control processes. Additionally, we support members with cyber resilience, promote digitalization of grids, help members engage with relevant technical standards, embodied carbon, trade and climate policy including CBAM.

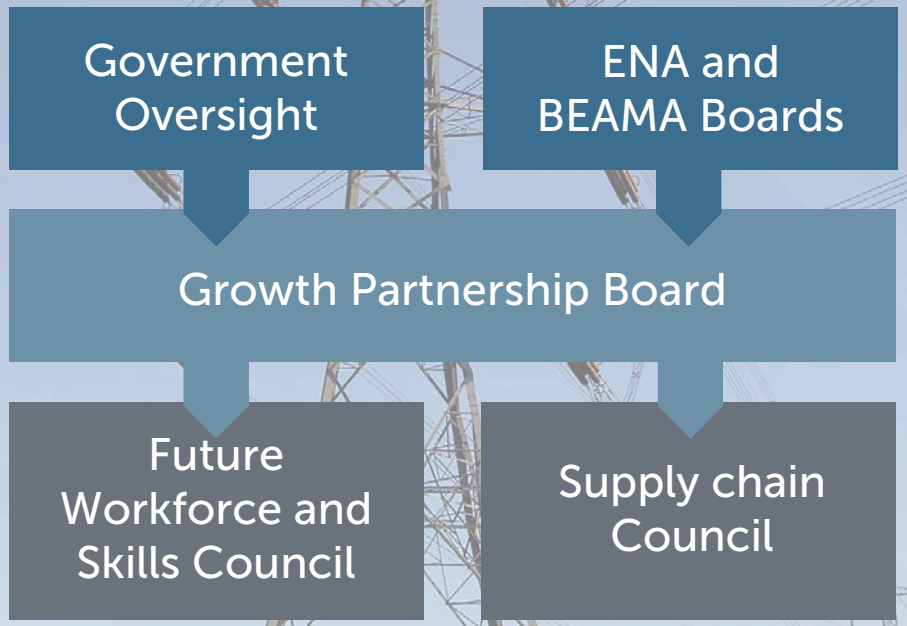

Why Join ENI Services?

The group will provide firms working in civil engineering, construction, design, specification and wider services:

- **A joint voice for the supply chain** on electricity infrastructure policy issues, where to date there has been only combined representation.
- **Visibility for your sector**, and ability to demonstrate your importance and contribution to economic growth, in terms of aggregated employment numbers, turnover and geographic reach.
- A route to be a **key stakeholder in the Electricity Networks Sector Growth Partnership**.
  - Participation in working groups and boards of the Supply Chain Council.
  - A space to influence on topics such as Skills and the Good Job Standard focusing on your specific needs.
  - Shaping the next phase of the Partnership.
- Opportunity to **jointly fund projects** such as targeted campaigns, dedicated events, commission research and more.

Meetings also include expert updates from BEAMA staff and guest speakers from relevant policy and regulatory organisations.	Focuses on policy and advocacy, including topics such as consultation responses. Also acts as the main BEAMA forum for updates and input into the networks sector growth plan.	Advises and supports the development of technical responses, guidance and positions on standards development related to energy network infrastructure. Active participation ensures members remain at the forefront of standards, regulation and system-level technical developments.	Cross-sector working groups to support the analysis, supply chain/manufacturing and skills workstreams, working to agree commitments across the sector and act as a critical friend to the consultants delivering the commissioned outputs of the project.

The Wider Community

When you join a group within BEAMA, you benefit from being a part of the larger association, which represents a wide range of technologies and sub-sectors, including:

Transmission and distribution equipment for the electricity grid

Smart IOT devices for buildings

Heating, hot water and ventilation products

Electrical installation products for the built environment

Storage – thermal, phase-change and battery

Electric vehicle charging infrastructure

Smart metering and metering solutions

Why join the BEAMA community?

At BEAMA, we identify with the principle that a membership can provide a cost-effective way of staying in touch with activities that affect your business, whilst providing access to the sort of information and sphere of influence that is difficult to resource at Board level or through an individual appointment.

Becoming a BEAMA member instantly gives your company access to the BEAMA community. We run the organisation with a community approach at its heart; creating opportunities for networking with industry peers, opening up co-working opportunities, and sharing resources to help your company influence market defining policy, regulations or standards.

beama

BEAMA Benefits

Readily Available Insight
Reducing the time and effort required to gather and interpret information, with trusted insight to support efficient internal briefings and training across a range of applicable topics.

Conformity and Compliance
Support to understand, interpret and apply relevant policies, regulations and standards with confidence.

Collaboration and Networking
Facilitated opportunities to share expertise, collaborate with peers and work collectively to address common challenges, assisted by BEAMA experts.

Policy and Standards Influence
Be a part of BEAMA's reputation and collective voice to shape the policies, regulations and standards which affect your products markets and future investment decisions.

Informed Navigation of Change
Visibility of policy and regulatory development for proactive planning and informed decisions with operational and commercial impact.

Wider Market Intelligence
Insight into evolving market expectations and information requests, including digitalisation, environmental performance and product safety.

Gain value from working alongside industry peers

Working with industry peers can be vital, particularly when facing challenges that cannot be tackled effectively alone. By joining, you gain collaboration where **strength in numbers** truly matter.

Consensus building for industry positions that may relate to technology performance assessment, skills development or customer advice.

Networking for projects including, but not exclusive to, guidance development, testing and/or certification scheme frameworks or trade communication campaigns.

Bringing aligned industries together for advocacy strength to ensure a common voice for UK and International policy, regulatory or standardisation development work.

Focused campaigns which can target a range of audiences to influence their perception of a given technology sector.

The capability to join non-Governmental collaborative environments in which members can support or track academic or 'think tank' research and development programmes.

Specialised Support

Representation

Events and Resources

Services

The support provided by BEAMA through its committees and vast resource libraries along with the services offered to all members, such as the 2050 Connected and Digitisation Hubs are extremely valuable to guide members through the ever-changing landscapes. This along with the BEAMA team lobbying Government has been pivotal in the changes that we are currently seeing in decarbonisation and safety."

Michael Smith Switchgear
Building Electricity Systems (BES) Member

Specialised Support

Account Management Support

Every BEAMA technology group has a dedicated 'account manager' offering expert support and advice along with the capability to manage industry projects such as the development of guidance documents.

Bespoke company-wide presentations

Through our expert account management service, members have the opportunity to request bespoke or general company briefings on relevant topics currently being overseen by the BEAMA team. These can include on technical, policy, sustainability, and digital topics.

Standards & Conformity Assessment Leadership

Influence the standards that shape your market. BEAMA represents members across UK, European and International standards and conformity assessment bodies, ensuring your interests are heard, requirements are understood, and emerging technologies are reflected in future regulation and standards.

Guiding your organisation through new regulations or technical standards

Our experts at BEAMA will help guide you through changes in the marketplace that impact your business, whether that's amendments to existing technical standards and regulations, or new reporting requirements. We aim to steer you through how to apply these changes, giving you early notice ahead of publication.

"BEAMA combines technical knowledge with policy engagement to support members operating in complex and rapidly developing markets. In areas such as smart buildings and electrification, that blend of expertise helps businesses engage more confidently in regulatory discussions and align with the wider direction of travel."

Representing Members

Facilitating networking and collaboration across sector groups

Positioning and sector marketing support

Engaging with other supply chain organisations

Member projects, thought leadership, campaigns and lobbying

Engaging with our community about UK & International policy activity

Actively engaging in National, European and International standardisation and conformity assessment

Guiding our community of members through periods of industry transformation on topics of Digitalisation and Net Zero

Events and Resources

Networking events

Our account management and marketing teams host networking events driven by membership needs, online and in-person. These events could be issues focused or provide a platform for speaking to, and networking with, members of market value chains.

Bespoke and up-to-date guidance and publications

We create high-impact guidance driven by member demand, the policy landscape and future market needs. By convening our members and partnering where beneficial with cross-industry stakeholders, we deliver credible publications that support commercial decision-making, strengthen member markets, and shape policy outcomes.

Our Services

We offer a wide range of essential services to future-proof your business:

BEAMA 2050 Connected

Digitalisation Hub

Policy & External Affairs

Statistics & Economics

Uniting for Net Zero and Circularity

As part of membership, companies benefit from BEAMA 2050 Connected, our cross-sector platform for collaboration on Net Zero and the circular economy.

Decarbonising the value chain requires coordinated action, and 2050 Connected brings members and their supply chain together to share and collaboratively develop best practice guidance, strengthen communication and drive consistent, practical progress.

Whether a company is just starting down their sustainability journey or has a well embedded sustainability team, BEAMA 2050 Connected empowers those delivering change by helping value chains to align activity, accelerate learning and increase collective impact.

"BEAMA 2050 Connected brings industry together to learn and agree a shared path to sustainability."

Amy Collins
Head of Net Zero and Clean Tech

beama 2050 Connected | Shoulder to shoulder for Net Zero alignment

Forming an Engaged Community

Community Events and Learning:

Gain exclusive access to events that connect companies across the value chain, creating opportunities for collaboration, insight sharing, and mutual learning.

Supporting Informed Understanding

BEAMA 2050 Connected Hub Access:

Benefit from access to the BEAMA 2050 Connected Hub, our central platform supporting sustainability efforts across the sector, shared learning and policy and regulatory insight.

Collaborating for Consistency

Focused Groups and Communities:

Engage in BEAMA's Technical Sustainability Committee and working groups, where members collaborate to shape industry positions and develop guidance, standards and best practice that support the wider membership.

Digitalisation Hub

Digitalisation presents both challenges and opportunities for the electrotechnical sector. New UK, EU and international regulations, standards and technologies are emerging to maximise benefits while protecting consumers, markets and critical infrastructure.

The Digitalisation Hub exists to empower members to shape the digital future of the electrotechnical sector - practical support, peer collaboration and tools to test, prove, and scale digital solutions.

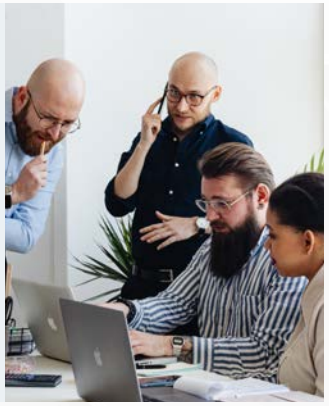

"Our Digital Hub and Network exist to make digitial transformation practical - turning standards, regulation and real-world implementation into an enabler, not a barrier, so members can move forward with confidence."

Patricia Massey
Head of Digital & Technical Standards

beama
The trade association for energy infrastructure & systems

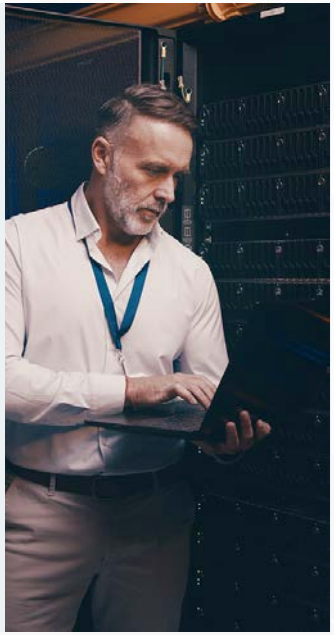

Digital Strategy & Innovation Network (DSIN)

DSIN is BEAMA's member forum for digital transformation. It's a collaborative space where members identify shared challenges, shape coordinated industry positions and turn digital ambition into collective, practical action that protects and advances member interests.

Digital Hub

The Hub offers practical tools and expert support - guidance on data standards, cybersecurity and data protection, AI, connected systems and Digital Product Passports, plus regular regulatory and standards updates. Members actively shape and contribute to guidance documents, workshops, case studies, newsletters and sandbox activities - testing and refining ideas before wider rollout. Backed by BEAMA's dedicated digital resource, the Hub empowers members to boost efficiency, strengthen compliance, manage risk and unlock the full potential of digitalisation together.

Policy & External Affairs

Policy and regulation play a decisive role in shaping demand, costs and investment for BEAMA members. As a respected and established voice, BEAMA is trusted by government, regulators and Industry partners to provide expert insight on the technologies and markets we represent.

BEAMA is well known and well regarded across Whitehall, regulators and European institutions. Through longstanding relationships with Ministers, officials and key stakeholders, we ensure our members' voices are heard in the development of UK and EU policy and regulation.

We support members by providing early notice of policy changes and advising on impacts in a variety of formats. We translate our members' commercial priorities into clear policy positions, underpinned by robust evidence, market insight and technical expertise to maximise our influence. Our partnerships, including with the Energy Systems Catapult, strengthen our ability to shape future market frameworks, support innovation and open pathways to international opportunity.

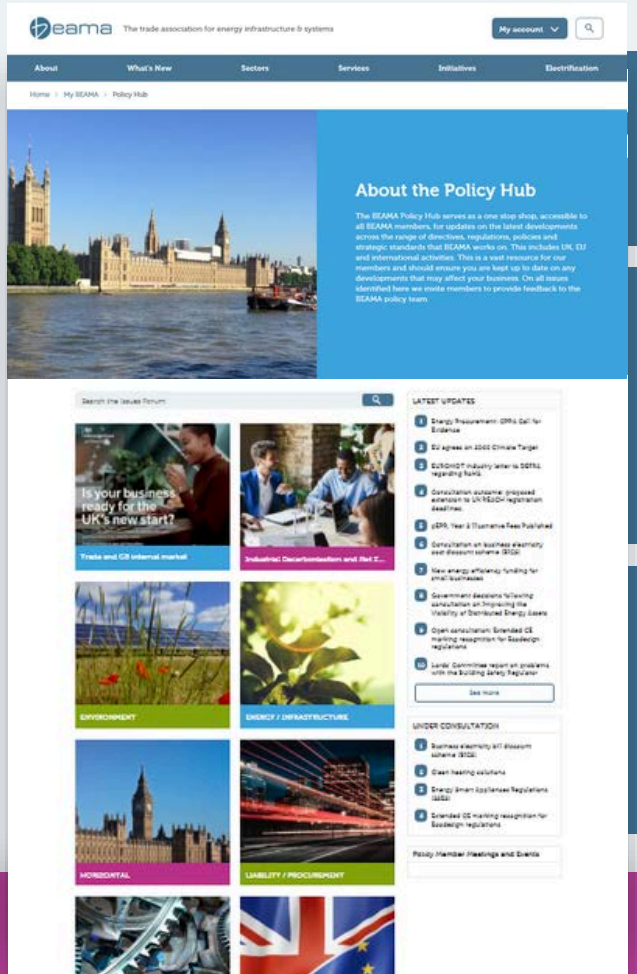

"We alert you to the opportunities and costs of policies, and promote your views to benefit our industry."

Simon Harpin
Head of Policy

beama
The trade association for energy infrastructure & systems

The Policy Hub and briefings

Every BEAMA member company gains their team's unrestricted access to our password protected web-based chronological library of policy and regulatory information. This enables members to receive the latest updates, recap long-running topics and track progress over time. We also provide a detailed tracker and monthly policy webinars.

Web-based resources are accessible to your entire organisation

Arrange direct training or discussions on the policy topics which matter most to your company

Meet officials and Ministers, and get preparation support before your own discussions with policy makers

Statistics & Economics

Our Statistics & Economics function provides trusted, independent market insight to support confident decision-making and strategic planning from data across the electrical and mechanical engineering industries.

Fed by our Business Dashboard, our Market Pulse Reports draw together information from multiple sources to provide a quarterly snapshot of market conditions. These reports are valued by members as a clear reflection of market performance and trends, and by policymakers as a robust evidence base for understanding the health of the sector.

This insight saves members significant time by bringing together reliable, industry-specific data in one place, while ensuring businesses remain informed of wider economic context. Combined with short- and long-term analysis, BEAMA's statistics underpin investment decisions, support business planning and strengthen confidence in future market outlooks.

"BEAMA's statistics and market insight provide members with a trusted evidence base to understand market trends, inform strategic decisions and navigate an evolving economic landscape with confidence."

Emmanuel Amoakohene
Head of Statistics

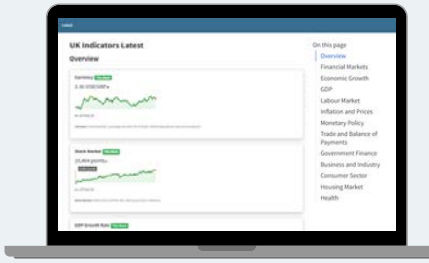

beama
The trade association for energy infrastructure & systems

BEAMA Indices Portal

An exclusive portal for our Contract Price Adjustment (CPA) service using independently sourced material, labour and transport cost data to support accurate price adjustments and escalations.

Business Dashboard

BEAMA's digital repository that aggregates industry trends, manufacturing data, and national economic indicators to help you track market performance and inform strategic planning.

Statistics Publications

Regular market insight reports across BEAMA product groups, tracking sales volumes and values, short- and long-term trends, forecasts and market surveillance.

Market Pulse

Quarterly reports combining member survey data and wider industry sources to highlight key trends and indicators for growth, presented in a clear, digestible format alongside analysis of drivers and impacts.

Additional Services

Further support available to all BEAMA Members:

The trade association for energy infrastructure & systems

BEAMA Legal

BEAMA Legal provides expert legal, regulatory and trade policy support to manufacturers across BEAMA's sectors, helping members operate compliantly, competitively, and with confidence.

Legal guidance on contract law and conditions, competition, product liability, procurement, and other commercial and regulatory legal issues.

Contract publications, including BEAMA's own contract conditions and European legal publications to which BEAMA legal contributes via Orgalim.

Legislative monitoring and advocacy at UK and EU level, representing members' interests.

Trade policy representation in the UK and EU covering rules of origin, tariffs, customs procedures and regulatory requirements, with direct engagement with UK government.

International Trade & Exhibition Support

Our International Trade and Exhibition Support helps members access global markets faster, cheaper, and with reduced complexity.

Practical exhibition support
Trusted advice on freight forwarding, logistics, and exhibition stand design, so you turn presence into results.

Market insight & visibility
We promote UK products and new technologies overseas and share intelligence on markets with the strongest growth potential.

Everything in one place
Live opportunities, invitations, and key trade contacts hosted in the BEAMA Members Area.

Who can we help?

New or first-time exporters

SMEs entering overseas markets

Established exporters targeting new regions

Our Vision

A market for safe, secure, and compliant products.

A strong investment environment for electrification technologies.

A prosperous export market for our members.

A low carbon, smart and flexible energy system.

Our Mission

beama
The trade association for energy infrastructure & systems

To be the first port of call for industry, media and Government regarding the pathway to electrification for a Net Zero future.

To provide leadership, expertise and independent influence in the areas of Net Zero product safety, performance, energy efficiency and sustainability.

To support member companies in understanding how legislation, regulation and standardisation will affect their day to day business so they can invest and act appropriately.

To lead the development of a market for sustainable products and uphold the integrity of our industry, supporting our community of members to achieve their Net Zero corporate responsibilities and goals.

To serve the needs of the industry as the leading trade association by proactively developing and influencing the content of technical standards and regulation.

To drive and influence National, European and International standards on safety and performance and influence conformity assessment and accreditation policy.

beama
The trade association for energy infrastructure & systems

We consider maintaining a BEAMA membership one of the most efficient and impactful investments we've made. The insight, representation, and practical support they provide deliver real value, helping us navigate change and focus our resources where they matter most."
