THE eama ANNUAL CONFERENCE

The trade association for energy infrastructure & systems

Making a Market for Electrification

Last year's event was a resounding success with over 200 attendees and Ministerial support, along with an inspiring group of panellists.

This year, we will focus on the barriers and opportunities for UK manufacturing investment in electrification, with discussions focusing on the practical aspects of turning evolving policy and regulatory ambition into investment growth.

This opportunity comes at an exciting and pivotal time for our industry. We know that collaboration is key to achieving our shared goals, and we would be delighted to have you sponsor this important event.
