

The trade association for energy
infrastructure & systems

VENTILATION GROUP

PROSPECTUS

Welcome from the CEO

BEAMA represents an industry at the heart of the UK's clean energy and electrification journey. Our members enable clean power in the UK and around the world. They design, manufacture and supply the technologies which decarbonise and electrify buildings and transport, whilst expanding and upgrading energy infrastructure. These technologies are fundamental to economic growth, energy security and the delivery of a low carbon future.

As a trade association, our role is clear: to support our members to succeed in a fast-changing and increasingly complex landscape. We bring industry together to provide a strong, credible collective voice, which we use to influence standards and turn policy ambition into practical action. We underpin this by facilitating the sharing of insight and best practice, helping to translate common challenges into shared opportunities. Through collaboration and technical expertise, we support UK manufacturing to remain competitive, resilient and relevant across both UK and EU markets.

This prospectus sets out how BEAMA supports its members today, while laying the foundations for long-term success. I am proud of the organisations we represent and the influential role we play in building a strong, innovative and forward-looking industry. We welcome new businesses into our growing community of members at this exciting time for our sector, and I am proud to see BEAMA at the forefront of shaping the future market for our membership."

Yselkla Farmer
CEO

About BEAMA

Shaping the policy, standards and markets that enable UK electrotechnical manufacturers to compete, comply and grow.

BEAMA is the UK manufacturing trade association for the electrotechnical sector, representing companies that design, manufacture and supply the energy infrastructure and systems critical to the UK's Net Zero and energy security ambitions.

We work at the intersection of regulation, standards and market development, providing manufacturers with early insight, technical expertise and a collective voice on product safety, performance, energy efficiency, digitalisation and sustainability. Our scope spans energy networks, electrical infrastructure and service technologies across the built environment, transport and energy sectors.

Established in 1905, BEAMA is a trusted partner to manufacturers navigating complex and fast-moving change. Through targeted forums, technical groups and market-focused initiatives, we help members anticipate regulatory developments, influence policy and standards, reduce risk, and position their businesses for long-term growth in the UK and beyond.

Welcome from Group Chairman

“

BEAMA provides ventilation manufacturers with a strong, collective voice at a time when indoor air quality, energy efficiency and building performance are increasingly important.

“Through the Ventilation Group, members can help shape regulation and standards, share technical expertise, and engage directly with policymakers and industry stakeholders, ensuring our sector is well represented as the built environment continues to evolve.”

Lee Nurse,
Business Development Director

volution

Our Sector

The impact of poor indoor air quality costs the NHS over £1bn per annum in the UK. BEAMA's Ventilation Group has committed to targeted action in promoting mechanical ventilation systems to address this growing social problem.

Over the past two decades, BEAMA have worked to promote positive solutions to indoor health issues, including the creation of a product certification scheme for mechanical ventilation and an installer training scheme to address education gaps in the supply chain. Supply chain guidance and an over-arching awareness campaign around indoor air quality have also supported the journey to improving building and tenant health.

Our objective remains focused on influencing policy to promote healthy outcomes including reform of Energy Performance Certificates, strengthening building regulations compliance (including chairing the Future Homes Hub Ventilation Group) and ensuring new and existing building construction policies do not compromise quality of life.

The framework for better home and occupier health is complex, and we work with European bodies such as the European Ventilation Industry Association (EVIA) and the Healthy Homes and Buildings All Party Parliamentary Group to promote the positive changes required.

Who is in scope?

Meet your network

BEAMA's Ventilation Group brings together leading UK manufacturers and suppliers of ventilation products and equipment, championing high-performance solutions that deliver quality, reliability, and long-term building performance.

Who we work with...

... you work with.

We work closely with a range of government bodies and regulators to advocate for the needs of our members, including DESNZ, MHCLG, and the Building Safety Regulator, alongside a high level of involvement with the Health Homes and Buildings All Party Parliamentary Group.

We also engage with industry bodies to further our aims, including BESA, the BRE and the Future Homes Hub. At a European level, we are part of the European Ventilation Industry Association and Orgalim, which expands our reach outside of the UK. Our connections and professional relationships support our aim to provide healthy indoor environments across the UK and beyond.

Our Workplan

Healthy indoor air quality should be a non-negotiable within regulation and the built environment. Our workplan supports this goal to accelerate the effective adoption of adequate ventilation alongside competency in design and installation.

Improving quality assurance through the creation of a new ventilation guide and enforcing new training guidelines for the supply chain.

Developing a UK position and response to changes to Ecodesign legislation from EU.

Creating a UK wide advice framework package to influence the new Warm Homes Agency advice service.

Ongoing policy pressure to incorporate Indoor Air Quality into the Energy Performance Certificate framework

The Wider Community

When you join a group within BEAMA, you benefit from being a part of the larger association, which represents a wide range of technologies and sub-sectors, including:

Transmission and
distribution equipment for
the electricity grid

Smart IOT devices
for buildings

Heating, hot water and
ventilation products

Electrical installation
products for the built
environment

Storage – thermal,
phase-change and
battery

Electric vehicle
charging infrastructure

Smart metering and
metering solutions

Why join the BEAMA community?

At BEAMA, we identify with the principle that a membership can provide a cost-effective way of staying in touch with activities that affect your business, whilst providing access to the sort of information and sphere of influence that is difficult to resource at Board level or through an individual appointment.

Becoming a BEAMA member instantly gives your company access to the BEAMA community. We run the organisation with a community approach at its heart; creating opportunities for networking with industry peers, opening up co-working opportunities, and sharing resources to help your company influence market defining policy, regulations or standards.

Being part of BEAMA means we're not facing common challenges alone. We're working together to shape a more resilient sector, ensuring our collective voice is heard and the industry continues to evolve with confidence."

BEAMA Benefits

Readily Available Insight

Reducing the time and effort required to gather and interpret information, with trusted insight to support efficient internal briefings and training across a range of applicable topics.

Conformity and Compliance

Support to understand, interpret and apply relevant policies, regulations and standards with confidence.

Collaboration and Networking

Facilitated opportunities to share expertise, collaborate with peers and work collectively to address common challenges, assisted by BEAMA experts.

Policy and Standards Influence

Be a part of BEAMA's reputation and collective voice to shape the policies, regulations and standards which affect your products markets and future investment decisions.

Informed Navigation of Change

Visibility of policy and regulatory development for proactive planning and informed decisions with operational and commercial impact.

Wider Market Intelligence

Insight into evolving market expectations and information requests, including digitalisation, environmental performance and product safety.

Gain value from working alongside industry peers

Working with industry peers can be vital, particularly when facing challenges that cannot be tackled effectively alone. By joining, you gain collaboration where **strength in numbers** truly matter.

Consensus building for industry positions that may relate to technology performance assessment, skills development or customer advice.

Networking for projects including, but not exclusive to, guidance development, testing and/or certification scheme frameworks or trade communication campaigns.

Bringing aligned industries together for advocacy strength to ensure a common voice for UK and International policy, regulatory or standardisation development work.

Focused campaigns which can target a range of audiences to influence their perception of a given technology sector.

The capability to join non-Governmental collaborative environments in which members can support or track academic or 'think tank' research and development programmes.

What level of support can you expect from your BEAMA membership?

Specialised Support

Representation

Events and
Resources

Services

The support provided by BEAMA through its committees and vast resource libraries along with the services offered to all members, such as the 2050 Connected and Digitisation Hubs are extremely valuable to guide members through the ever-changing landscapes. This along with the BEAMA team lobbying Government has been pivotal in the changes that we are currently seeing in decarbonisation and safety."

Michael Smith Switchgear
Building Electricity Systems (BES) Member

Specialised Support

Account Management Support

Every BEAMA technology group has a dedicated 'account manager' offering expert support and advice along with the capability to manage industry projects such as the development of guidance documents.

Bespoke company-wide presentations

Through our expert account management service, members have the opportunity to request bespoke or general company briefings on relevant topics currently being overseen by the BEAMA team. These can include on technical, policy, sustainability, and digital topics.

Standards & Conformity Assessment Leadership

Influence the standards that shape your market. BEAMA represents members across UK, European and international standards and conformity assessment bodies, ensuring your interests are heard, requirements are understood, and emerging technologies are reflected in future regulation and standards.

Guiding your organisation through new regulations or technical standards

Our experts at BEAMA will help guide you through changes in the marketplace that impact your business, whether that's amendments to existing technical standards and regulations, or new reporting requirements. We aim to steer you through how to apply these changes, giving you early notice ahead of publication.

BEAMA combines technical knowledge with policy engagement to support members operating in complex and rapidly developing markets. In areas such as smart buildings and electrification, that blend of expertise helps businesses engage more confidently in regulatory discussions and align with the wider direction of travel."

Events and Resources

Networking events

Our account management and marketing teams host networking events driven by membership needs, online and in-person. These events could be issues focused or provide a platform for speaking to, and networking with, members of market value chains.

Bespoke and up-to-date guidance and publications

We create high-impact guidance driven by member demand, the policy landscape and future market needs. By convening our members and partnering where beneficial with cross-industry stakeholders, we deliver credible publications that support commercial decision-making, strengthen member markets, and shape policy outcomes.

Our Services

We offer a wide range of essential services to future-proof your business:

BEAMA 2050 Connected

Digitalisation Hub

Policy & External Affairs

Statistics & Economics

Uniting for Net Zero and Circularity

As part of membership, companies benefit from BEAMA 2050 Connected, our cross-sector platform for collaboration on Net Zero and the circular economy.

Decarbonising the value chain requires coordinated action, and 2050 Connected brings members and their supply chain together to share and collaboratively develop best practice guidance, strengthen communication and drive consistent, practical progress.

Whether a company is just starting down their sustainability journey or has a well embedded sustainability team, BEAMA 2050 Connected empowers those delivering change by helping value chains to align activity, accelerate learning and increase collective impact.

“BEAMA 2050 Connected brings industry together to learn and agree a shared path to sustainability.”

Amy Collins
Head of Net Zero
and Clean Tech

for Net Zero alignment

Forming an Engaged Community

Community Events and Learning:

Gain exclusive access to events that connect companies across the value chain, creating opportunities for collaboration, insight sharing, and mutual learning.

Supporting Informed Understanding

BEAMA 2050 Connected Hub Access:

Benefit from access to the BEAMA 2050 Connected Hub, our central platform supporting sustainability efforts across the sector, shared learning and policy and regulatory insight.

Collaborating for Consistency

Focused Groups and Communities:

Engage in BEAMA's Technical Sustainability Committee and working groups, where members collaborate to shape industry positions and develop guidance, standards and best practice that support the wider membership.

Digitalisation Hub

Digitalisation presents both challenges and opportunities for the electrotechnical sector. New UK, EU and international regulations, standards and technologies are emerging to maximise benefits while protecting consumers, markets and critical infrastructure.

The Digitalisation Hub exists to empower members to shape the digital future of the electrotechnical sector - practical support, peer collaboration and tools to test, prove, and scale digital solutions.

“Our Digital Hub and Network exist to make digital transformation practical - turning standards, regulation and real-world implementation into an enabler, not a barrier, so members can move forward with confidence.”

Patricia Massey
Head of Digital & Technical Standards

Digital Strategy & Innovation Network (DSIN)

DSIN is BEAMA's member forum for digital transformation. It's a collaborative space where members identify shared challenges, shape coordinated industry positions and turn digital ambition into collective, practical action that protects and advances member interests.

Digital Hub

The Hub offers practical tools and expert support - guidance on data standards, cybersecurity and data protection, AI, connected systems and Digital Product Passports, plus regular regulatory and standards updates. Members actively shape and contribute to guidance documents, workshops, case studies, newsletters and sandbox activities - testing and refining ideas before wider rollout. Backed by BEAMA's dedicated digital resource, the Hub empowers members to boost efficiency, strengthen compliance, manage risk and unlock the full potential of digitalisation together.

Policy & External Affairs

Policy and regulation play a decisive role in shaping demand, costs and investment for BEAMA members. As a respected and established voice, BEAMA is trusted by government, regulators and Industry partners to provide expert insight on the technologies and markets we represent.

BEAMA is well known and well regarded across Whitehall, regulators and European institutions. Through longstanding relationships with Ministers, officials and key stakeholders, we ensure our members' voices are heard in the development of UK and EU policy and regulation.

We support members by providing early notice of policy changes and advising on impacts in a variety of formats. We translate our members' commercial priorities into clear policy positions, underpinned by robust evidence, market insight and technical expertise to maximise our influence. Our partnerships, including with the Energy Systems Catapult, strengthen our ability to shape future market frameworks, support innovation and open pathways to international opportunity.

“We alert you to the opportunities and costs of policies, and promote your views to benefit our industry.”

Simon Harpin
Head of Policy

The Policy Hub and briefings

Every BEAMA member company gains their team's unrestricted access to our password protected web-based chronological library of policy and regulatory information. This enables members to receive the latest updates, recap long-running topics and track progress over time. We also provide a detailed tracker and monthly policy webinars.

**Web-based
resources are
accessible to your
entire organisation**

**Arrange direct
training or
discussions on the
policy topics which
matter most to your
company**

**Meet officials and
Ministers, and get

support before your
own discussions
with policy makers**

Statistics & Economics

Our Statistics & Economics function provides trusted, independent market insight to support confident decision-making and strategic planning from data across the electrical and mechanical engineering industries.

Fed by our Business Dashboard, our Market Pulse Reports draw together information from multiple sources to provide a quarterly snapshot of market conditions. These reports are valued by members as a clear reflection of market performance and trends, and by policymakers as a robust evidence base for understanding the health of the sector.

This insight saves members significant time by bringing together reliable, industry-specific data in one place, while ensuring businesses remain informed of wider economic context. Combined with short- and long-term analysis, BEAMA's statistics underpin investment decisions, support business planning and strengthen confidence in future market outlooks.

“BEAMA’s statistics and market insight provide members with a trusted evidence base to understand market trends, inform strategic decisions and navigate an evolving economic landscape with confidence.”

Emmanuel Amoakohene
Head of Statistics

BEAMA Indices Portal

An exclusive portal for our Contract Price Adjustment (CPA) service using independently sourced material, labour and transport cost data to support accurate price adjustments and escalations.

Business Dashboard

BEAMA's digital repository that aggregates industry trends, manufacturing data, and national economic indicators to help you track market performance and inform strategic planning.

Statistics Publications

Regular market insight reports across BEAMA product groups, tracking sales volumes and values, short- and long-term trends, forecasts and market surveillance.

Market Pulse

Quarterly reports combining member survey data and wider industry sources to highlight key trends and indicators for growth, presented in a clear, digestible format alongside analysis of drivers and impacts.

Additional Services

Further support available to all BEAMA Members:

BEAMA Legal

BEAMA Legal provides expert legal, regulatory and trade policy support to manufacturers across BEAMA's sectors, helping members operate compliantly, competitively, and with confidence.

Legal guidance on contract law and conditions, competition, product liability, procurement, and other commercial and regulatory legal issues.

Contract publications, including BEAMA's own contract conditions and European legal publications to which BEAMA legal contributes via Orgalim.

Legislative monitoring and advocacy at UK and EU level, representing members' interests.

Trade policy representation in the UK and EU covering rules of origin, tariffs, customs procedures and regulatory requirements, with direct engagement with UK government.

International Trade & Exhibition Support

Our International Trade and Exhibition Support helps members access global markets faster, cheaper, and with reduced complexity.

Practical exhibition support

Trusted advice on freight forwarding, logistics, and exhibition stand design, so you turn presence into results.

Market insight & visibility

We promote UK products and new technologies overseas and share intelligence on markets with the strongest growth potential.

Everything in one place

Live opportunities, invitations, and key trade contacts hosted in the BEAMA Members Area.

Who can we help?

New or first-
time exporters

SMEs entering
overseas markets

Established
exporters targeting
new regions

Our Vision

A market for safe, secure, and compliant products.

A strong investment environment for electrification technologies.

A prosperous export market for our members.

A low carbon, smart and flexible energy system.

Our Mission

To be the first port of call for industry, media and Government regarding the pathway to electrification for a Net Zero future.

To provide leadership, expertise and independent influence in the areas of Net Zero product safety, performance, energy efficiency and sustainability.

To support member companies in understanding how legislation, regulation and standardisation will affect their day to day business so they can invest and act appropriately.

To lead the development of a market for sustainable products and uphold the integrity of our industry, supporting our community of members to achieve their Net Zero corporate responsibilities and goals.

To serve the needs of the industry as the leading trade association by proactively developing and influencing the content of technical standards and regulation.

To drive and influence National, European and International standards on safety and performance and influence conformity assessment and accreditation policy.

We consider maintaining a BEAMA membership one of the most efficient and impactful investments we've made. The insight, representation, and practical support they provide deliver real value, helping us navigate change and focus our resources where they matter most."
