## **Political Engagement**

- The BEIS team leading on the Government's Rules of Origin work has asked for fortnightly conference calls (or meetings where appropriate) with EURIS to discuss progress on the Rules of Origin work. A sign of the high value they place on their relationship with EURIS.
- The House of Commons Exiting the European Union Select Committee last week published its third report on its overarching inquiry into the Article 50 negotiations. Of particular interest to EURIS members are the 15 key tests by which the Committee says any deal agreed by October 2018 must be judged. <a href="https://publications.parliament.uk/pa/cm201719/cmselect/cmexeu/935/93502.htm">https://publications.parliament.uk/pa/cm201719/cmselect/cmexeu/935/93502.htm</a>
- A number of the Select Committee's 15 tests for Brexit success are hugely relevant to EURIS members and EURIS issued a press release welcoming the Select Committee's interest in this area and outling our support in particular for the call for continued membership of key European agencies (such as Standards Bodies), for no additional border or rules of origin checks that would impede the operation of cross-border supply chains and the call for continued convergence with EU regulations in order to maximise access to European markets. <a href="http://www.euristaskforce.org/news/euris-comments-exiting-european-union-committees-future-uk-eu-relationship-report/">http://www.euristaskforce.org/news/euris-comments-exiting-european-union-committees-future-uk-eu-relationship-report/</a>
- EURIS is also writing to Committee Chair Hilary Benn on the back of the report.
