

UKTI Smart Grids Trade Mission to India

India Smart Grid Week (ISGW) 2016 – International Conference & Exhibition on Smart Grids and Smart Cities

Date: 15 to 19 March, 2016

Location: New Delhi

The 2nd edition of this Conference & Exhibition will bring together India's leading Electric Utilities, Policy Makers, Regulators, Investors and world's top-notch Smart Grid and Smart City Experts and Researchers to discuss trends, share best practices and showcase next generation technologies and products.

The First Edition of India Smart Grid Week held in March 2015 in Bangalore witnessed participation of over 700 experts and delegates representing nearly 180 organizations.

More details can be viewed at <http://www.isgw.in>

Objective of the event

The objective of the India Smart Grid Week conference will have detailed discussions and round table around the Smart Grids, share best practices and showcase next generation technologies and products in smart grid area. Conference will also include interactive workshops, panels, keynotes, and technical sessions.

India Smart Grid Week (ISGW) 2016 sessions will be based on the following theme :

- Role of Smart Grids in the New Programs of Government of India
- 21st Century Electric Grids
- Smart Grid Project Outcomes: Experiences and Lessons Learned – Global and India Perspectives
- Amendments to Indian Electricity Act – Separation of Carriage and Content
- Preparing for the Era of 100% Renewables
- National Smart Grid Mission (NSGM) in India

Why should UK companies should participate at this event?

- To get an overview of scale and type of commercial opportunities for UK companies in India;
- To get a brief in India on the policy framework, legal and regulatory challenges of doing business in India;
- To take the advantage of networking opportunities with a wide spectrum of Indian federal and state government decision makers, public and private companies and individuals;
- To meet key business contacts for potential tie-ups and long term business opportunities.
